NAKAGAWA H.K. LIMITED 中川(香港)首飾有限公司

About our products in catalog,

■ **Products marked “ ● ”**

● marked items stand for welded chains.

Those chains are welded by either laser or plasma process.

One of the merits of welded chains is less discolor and annealing problems occur compared with soldered chains.

Welded chains are different from soldered chains in below points.

1) Measurement differs from same item number in soldered version.

2) Please pay attention on “punching” process. We recommend to use suitable punching tool.

Please feel free to contact our sales staffs for tool supply.

■ **Product marked “ ●● ”**

Although most of catalog products are in raw, plated products are available from our current stock as well.

● mark : Gold plated items are available from stock

● mark : Rhodium plated items are available from stock

We also have different variations of plating colors and nickel free process is available, please feel free to contact our sales staffs for your high developed request.

■ **Depiction method in catalog :**

Catalog photos are depicted from diagonal angle to cause three dimensional effects.

Actual size and looks of products would be a bit different from catalog photos, therefore we strongly recommend you will check real size with actual samples.

Our measurement in catalog is 1:1 proportion.

However, please kindly note there might be some small differences in size due to consumption of machine mold.

■ Please kindly note looks and specification of catalog product might be change for improvement without prior notice.

Please kindly accept in case production is discontinued in some items.

■ 9 or 11 digits numbers are our code numbers for stock tracking purpose.
